

GRADUATION PROJECT PROPOSAL

Academic Year/Semester: 1433-1434

A.GENERAL INFORMATION

- A1. Supervisor(s): Tahir Mahmood
 - A2. Project Title: **Airline Reservation System**
 - A3. Number of Students: 2
-

B.PROJECT ABSTRACT

This is web Application in which people can easily find the details of airlines availability and they can easily book ticket online. They have multiple modules like User registration system, user management system, airline details management system like price, availability, and third party online payment system. Also we can see the schedule of flights. Many airline companies have no computerized system so they need this type of system.

C. REQUIREMENTS (both hardware and software)
